Professional Summary

Results-driven Data Analyst with expertise in SQL, Excel, Python, and Power BI, specializing in business intelligence, operational reporting, and dashboard automation. Experienced in transforming raw data into actionable insights, improving data accuracy, and streamlining reporting processes. Seeking a Data Analyst/Reporting Analyst/MIS Analyst role to support data-driven decision-making and business optimization.

Technical Skills

- **Data Analysis:** Data Cleaning, Validation, KPI Tracking, Trend Analysis
- **Excel:** Pivot Tables, XLOOKUP, INDEX-MATCH, Dynamic Reports
- **Power BI:** Power Query, Data Modeling, DAX, Interactive Dashboards
- **SQL:** Joins, Aggregations, Subqueries, MySQL, Data Extraction
- **Python:** Pandas, NumPy, Data Processing
- **Tools:** MySQL, PowerPoint, Git, Jupyter Notebook

Professional Experience

Data Analyst Intern
RR IT Solutions

May 2025 – Oct 2025
Chennai, India

- Developed daily and monthly MIS reports using SQL and Excel for operational KPI tracking
- Cleaned and validated large datasets, improving reporting accuracy by 20%
- Built interactive Power BI dashboards for performance monitoring, reducing manual reporting time
- Automated reporting templates using Excel, reducing repetitive effort by 30%
- Extracted and transformed data from MySQL databases for business analysis

Projects

Sales Performance Dashboard

Power BI

Designed interactive dashboard analyzing sales by region and product category; created DAX measures for revenue trends and growth patterns

Employee Attendance Analysis

Excel & SQL

Analyzed attendance records to detect absenteeism trends; automated HR reports using formulas and SQL queries

Operational Reporting Automation

Excel

Structured raw datasets into standardized reporting format; improved consistency across monthly reports
