

Nithishkumar K

Data Analyst — SQL • Power BI • Python • Business Insights

Chennai, India — +91-9787169246
nithi11716@gmail.com — LinkedIn — Portfolio

PROFILE SUMMARY

Analytical and detail-driven Data Analyst graduate with practical internship experience in KPI reporting, dashboard development, and data cleaning automation. Adept at transforming raw operational datasets into structured insights to support business performance monitoring and decision-making. Skilled in SQL querying, Power BI visualization, and Python-based exploratory analysis within fast-paced reporting environments.

CORE SKILLS

Analytics & Visualization: Power BI (DAX, Data Modeling, Dashboard Design), Advanced Excel (Pivot Tables, XLOOKUP, INDEX-MATCH), Matplotlib

Database Management: MySQL (Joins, Aggregations, Subqueries, CTEs), Data Extraction, Query Optimization

Programming & Tools: Python (Pandas, NumPy), Reporting Automation, Git, GitHub

Analytical Strengths: KPI Tracking, Trend Analysis, Data Validation, Exploratory Data Analysis, Operational Insights

PROFESSIONAL EXPERIENCE

Data Analyst Intern

May 2025 – Oct 2025

RR IT Solutions, Chennai

- Prepared daily and monthly MIS reports using SQL and Excel to monitor performance across 10+ operational KPIs.
- Cleaned and validated datasets containing 5000+ records using Python Pandas to improve reporting consistency.
- Automated recurring reporting workflows through structured Excel templates, reducing manual effort and turnaround time.
- Developed interactive Power BI dashboards to visualize trends, bottlenecks, and department performance metrics.
- Wrote optimized MySQL queries for structured data extraction and timely business analysis support.

KEY PROJECTS

Sales Performance Dashboard — Power BI, DAX

- Built an interactive dashboard integrating multi-source sales datasets to track regional revenue performance and product contribution trends.
- Designed KPI visuals and DAX measures enabling comparative performance insights for sales stakeholders.

Employee Attendance Analytics — MySQL, Advanced Excel

- Analyzed attendance datasets to identify absenteeism patterns and workforce utilization insights.
- Developed automated Excel reports using pivot analysis and lookup functions to streamline payroll validation workflow.

Operational Reporting Automation — Advanced Excel

- Structured unorganized operational datasets into standardized formats using advanced formulas and validation logic.
- Improved reporting accuracy and reduced manual data preparation effort for weekly performance tracking.

EDUCATION

B.E. Electronics and Communication Engineering NPR College of Engineering and Technology CGPA: 7.35 / 10	2021 – 2025
Higher Secondary Certificate Nehruji Memorial Municipal HSS 80%	2020 – 2021
SSLC MSP Solai Nadar Memorial HSS 60%	2018 – 2019

CERTIFICATIONS

Python for Data Science – Besant Technologies
SQL for Data Analysis – Besant Technologies
